**CORPORATE ASSET FINANCE APPOINTMENT AT LLOYDS TSB  
CORPORATE MARKETS**

Lloyds TSB Corporate Markets has appointed Patrick Sherrington as a director in its Corporate Asset Finance division. He joins after nine years with Lombard Corporate Finance where he focused on a number of sectors including transport, aerospace, power and utilities as well as wholesale finance and the purchase of operating lease portfolios.

Sherrington is joining Lloyds TSB Corporate Markets with a remit to focus on asset finance solutions for the aviation and industrial sectors. His appointment is the latest step in Lloyds TSB Corporate Markets' integration strategy, focused on developing in-depth sector coverage to service the bank's extensive corporate client base across all areas of credit and debt servicing.

He will work with Vasgen Edwards, managing director of Corporate Asset Finance who was appointed last year from GE Capital to build the bank's corporate asset finance business.

Edwards said: "Hires such as this will provide our relationship teams with the required depth of expertise across products and sectors and by leveraging our vertically integrated structured asset finance capability we can offer innovative solutions on deals ranging from £0.5m to £150m."
